

RAINA ZOHREEN N

Bengaluru, India | +91 8050633699 | rainazohreenn@gmail.com | linkedin.com/in/raina-zohreen-n-54684a2bb | github.com/rainazohreenn

CAREER OBJECTIVE

- Aspiring Software Engineer with a strong interest in Full-Stack Development and real-world problem solving
- Have independently built 5 full stack, AI, and desktop applications end-to-end using React.js, Node.js, Express.js, and Python
- Proficient across the stack with Supabase, PostgreSQL, MongoDB, REST APIs, and Git/GitHub-based version control
- Continuously learning modern technologies, with hands-on exposure to AI/ML tools including PyTorch and the Google Gemini API

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science and Engineering Graduation: August 2027
SJC Institute of Technology (SJCIT) | CGPA: 8.43

TECHNICAL SKILLS

Programming Languages: Python, Java, C
Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Vite
Backend Development: Node.js, Express.js, REST APIs
Databases & Cloud: Supabase, PostgreSQL, MongoDB
Desktop App Development: Python, CustomTkinter
APIs & Integrations: REST APIs, Google Gemini API, OpenWeather API
Tools & Platforms: Git, GitHub, VS Code, Postman
Core Competencies: Problem Solving, Communication, Leadership, Teamwork

PROJECTS

- Task Manager Desktop Application** Jul 2026

Python, CustomTkinter | github.com/rainazohreenn/synent-task3-TaskManager-raina

 - Built a Python desktop task manager with full CRUD functionality and completion tracking
 - Designed a clean, user-friendly interface following modular Python programming practices
- Weather Dashboard Pro** Jul 2026

Python, CustomTkinter, OpenWeather API | github.com/rainazohreenn/synent-task2-WeatherDashboard-raina

 - Built a Python desktop weather dashboard using the OpenWeather REST API for real-time updates
 - Displayed temperature, humidity, wind speed, pressure, and visibility in an interactive, responsive GUI
- Modern Calculator Desktop Application** Jul 2026

Python, CustomTkinter | github.com/rainazohreenn/synent-task1-calculator-raina

 - Built a Python desktop calculator with a dark-themed UI supporting arithmetic, percentage, and keyboard input
 - Designed a responsive, user-friendly graphical interface with clear and backspace functionality
- SortiWise - AI-Powered Waste Management Platform** Dec 2025

React.js, Node.js, Python, PyTorch, Google Gemini API, Supabase

 - Built an AI/ML-powered waste classification platform using a CNN model integrated with Google Gemini API
 - Developed a scalable full stack app with cloud database integration for real-time, image-based waste recognition
- Placement Management Portal** Nov 2025

React.js, Vite, Tailwind CSS, Node.js, Express.js, Supabase, PostgreSQL

 - Built a secure, role-based full stack portal for Students, HODs, and Placement Officers with resume filtering and job-matching via REST APIs
 - Integrated Supabase Authentication, PostgreSQL, and file storage into a responsive, modern web application

CERTIFICATIONS

- GenAI Powered Data Analytics Job Simulation — Tata (Forage), July 2026
- Data Engineering on AWS – Foundations — AWS Training & Certification, July 2026
- Blockchain and Its Applications — NPTEL, April 2026
- CCNA — Cisco Networking Academy, May 2025

ACHIEVEMENTS & LEADERSHIP

- Coordinator for Technotsava 7.0, the department's annual technical fest (April 2025), leading event planning and on-ground coordination
- Organized a farewell event for senior students, managing planning and execution as part of the core team

LANGUAGES

Urdu, English, Kannada, Hindi
